HALCOR

WHO WE ARE

Halcor is a reliable business partner who offers top-quality copper solutions to international clients from diverse and demanding sectors. With experience spanning a total of more than seventy five years, the company maintains the largest and most integrated production unit in Europe in its field. Combined with its in depth knowledge of the market, Halcor utilizes cutting-edge technologies in order to create value for its clients.

Halcor focuses on quality, offers a wide range of products and demonstrates unique flexibility in the production of particularly competitive solutions that address the specifications of its clients. The Company's products, the well-known copper pipes with the trademark TALOS®, are being exported in numerous and major markets on a global level.

Driven by consistency and responsibility, Halcor is growing steadily based on the needs of its clients, while it is expanding in new markets, with new products in competitive prices and having always in mind quality, safety and sustainable development. The Company evolves by combining its experience and expertise, its talented human capital, as well as its commitment to urge itself and its clients ahead, always respecting people and the environment. As a result, Halcor is reconized as one of the top manufacturers of copper products in Europe.

Halcor is a subsidiary of Viohalco, holding company based in Brussels with participation in various metal processing companies in Europe, Halcor creates significant added value to the Greek economy, with its activity in Greece and in international markets.

Halcor operates consistently and responsibly with a client centric approach. The company maintains longstanding partnerships with businesses and professionals as a provider of specialized and reliable copper solutions. The company's goal is to emerge as a leading copper tube production company in Europe. Halcor closely monitors the market and develops synergies in order to successfully address the specialized and ever changing needs of its clients.

Halcor, with a consistent and reliable commercial policy, implements a clear strategy focused on extroversion, production flexibility and constant upgrading of quality and solutions provided to its clients, building longstanding relations based on trust. In addition, the Company has as a priority the development of its employees, adopts a culture of continuous improvement and invests in cutting edge technology, always focusing on quality and competitiveness.

Halcor's mission is to provide innovative products and solutions that create value. The Company aims to increase its market share, to penetrate new segments focusing on the international market, investing in new and environmentally friendly products of added value.

Our Mission

Halcor's vision is to become a leading benchmark in the global market, with products and solutions that are recognized for their high quality, reliability, competitiveness and innovation. Always driven by Sustainable Development, the Company aspires to anticipate its clients' needs, developing diverse, competitive products based on new technologies, contributing at the same time in the sector's growth and creating more value for all stakeholders.

Our Vision
